History

Background Note on the collection creation:
This is an artificial collection created by the staff of the Chester County Historical Society as a quick access method of organizing topical photographs, obtained from a variety of sources.

The photographs were originally housed in Kraft paper envelopes on open shelves in the vault storage, interfiled with the ephemera collection. The photographs were removed from this area during the Photograph Cataloging Grant funded by Glenmeade Trust in 1986-1989 and were placed in closed stack storage in archival enclosures and containers. A self-indexing subject inventory list was made at that time. This collection is still actively being added to and constantly updated. New guides are printed and published annually.

Collection Scope and Content Note:
This collection contains 22.6 linear feet of albumen, salted paper, platinum, matte collodion, printing-out-paper, cyanotypes, silver gelatin, sepia toned, hand colored, or dye coupler photographs spanning the period from about 1850 to the present. The photographs were created by a variety of photographers, both professional and amateur from Chester County and beyond. The photographs measure 11 x 14 and smaller.

**Arrangement**

The collection is arranged alphabetically by topical headings according to the *Thesaurus for Graphic Materials*, compiled and edited by the prints and Photographs Division Library of Congress, Washington D.C., 1995. The files are further subdivided by geographic terms and corporate names.

If there is a large quantity of images under one topical heading and geographic term it may be further subdivided by date or other local terms.

Local terms have been added to accommodate frequent requests, such as Battle of Brandywine, Mason-Dixon Line markers, etc.

**Access and Use**

**Access Restrictions:**
None

**Acquisition Information:**
The photographs have been donated to CCHS since its founding in 1893 by a variety of donors. Donor names are identified on the photographs when known.
